DXpedition News

Pagula - 3C0

3C0A came on the air late Thursday June 19. Signals were weak but workable on the East Coast; West Coast stations report hearing the pileups but few QSOs with TR0A. Maybe band conditions will improve slightly before the DXpeditioners leave the island in early July. QSL via TR0AT, Box 1826, Libreville, Gabon. Sunrise 0545Z, sunset 1745Z. Meanwhile, look for 3C0BBC, who has been on 20 CW around 14004 at 2000Z. QSL via F6EGG. [Editor's Note: it was exactly 20 years ago to the week that I made my first DX QSO, with a 3C station on 80 meters. What country was it then? -VP2ML]

Andorra - C30

Overlapping the 3C0 operation is a C30 DXpedition by Dutch amateurs [pay attention to your callsigns!] PA3CPG will be C30BBP, and PA3EBO will operate as C30CYA June 25-July 16. QSL to FROG Contest Group, Box 2028, NL-2980 CA Rijsoord, Netherlands. Sunrise 0420Z, sunset 1930Z. (TNX DXNL)

Thailand - HS

DXNL reports that JH1MSB will operate HS0C for one week starting July 27, with the help of UNICEF. This is the day the new amateur rules are supposed to go in effect in Thailand. Meanwhile, HS0A continues to be active in major contests, including the All Asian. Sun rises 2300Z, sets 1145Z.

Monoco - 3A

DXNL also says DF8AN will be /3A July 14-31. QSL home call. Sunrise 0400Z, sunset 1900Z. Also look for 3A6E in a net at 14160 at 2200Z weekends.

Henderson Island - VR6

Some excitement for IOTA fans showed up last week: VR6AT and VR6HIJL came on the air from Henderson Island, which lies a few miles from Pitcairn, and counts as Pitcairn for DXCC. The operators are part of a Pacific cruise of a British navy ship, and they have operating permission at several stops. QSL via G4AAL.

JARL 60th Anniversary

The JARL is celebrating its 60th birthday this month, and is offering five awards for QSOs before Dec. 31, 1986. The award requirements range from working six Japanese amateurs with six different prefixes, to working 60 in 60 different cities. Details are available from TDXB for an SASE. [Sure is a better idea than JARL's 50th, when Dick Baldwin W1RU gave them 7J1 Okino Torishima as a birthday present. -ed.]

Meanwhile 8J3JST is commemorating 100 years of Japan Standard Time, until July 24. QSL via JARL. (Thanks DX Family News Letter.)

Shortly Noted

- **ZV prefix** Brazil's Fire Prevention Week June 29-July 5 brings ZV2s ADV (SSB), KT (CW), and BW (RTTY) on the air. QSL to respective PT prefixes (ie. ZV2KT via PT2KT)
- **Solomons** - H44 H44BL has been on 7003 at 1100Z. QSL SM6APQ. (Tnx Inside DX.)
- **American Samoa** - KH8 KH8KY's call is out of sequence, and his 14144 kHz SSB transmitting frequency seems a bit low. Probably Samoan Slim.
- **Togo** - 5V 5V7HL will be on until November. After his 2200Z 14220 kHz sked on Mondays and Wednesday with N4LBG, give him a call. QSL Box 8062, Tokoin, Lome, Togo. (Thanks DXNL.)
- **Marshall Islands** - KX6 KR7Q/KX6 has been very active on 20 meters around 1200Z. He is due to leave soon, so catch Dennis now. QSL 1110 19th Ave. SW, Payallup WA 98371.
- **Qatar Logs** - A71AD Mike 5B4TI managed to get his logs out of Qatar during a recent return visit. He can now QSL A71AD contacts (and 5B4TI QSOs) via Box 7121, Nicosia, Cyprus.

Correction

VU2UGI is the **xyl**, not the son, of VU2GI. Thanks KB8RT/7.

and KH6BZF

Propagation Watch

The relatively good conditions of the past couple of weeks are just that: past. Days of very low solar flux coupled with seasonally high noise, spell mediocre propagation for a few days, including ARRL FD. A good time to cultivate the antenna farm!

Canada Day Contest

The CARF-sponsored Canada Day Contest is 0000-2400Z July 1. Classes: single op all-band or single band, multi op all-band. One cw and one SSB QSO/band. Exchange report, serial number and state/province/country. 10 pts for VE QSOs, 4 pts for stations in other countries. TCA or VCA stations from Canada count double. Multipliers Canadian provinces and territories (13) per band and per mode. Mail entries by August 1 to Box 1890, Morinville, AB Canada T0G 1P0. (Thanks Long Skip.)

ICOM IC-751A

CAN YOU HANDLE THIS MUCH TRANSCEIVER?

- All HF Band Transceiver/General Coverage Receiver
- New Design
- 100% Duty Cycle Transmitter
- 105dB Dynamic Range
- All Modes Built-In USB, LSB, AM, FM, CW, RTTY
- 12 Volt Operation

The new IC-751A top-of-the-line HF base station transceiver is designed for the ham operator who demands high performance. Whether contesting or QSO'ing for pleasure, the 100 watt IC-751A incorporates the best features of the IC-751, plus brings you to the forefront with the following most-asked for additions.

More CW Control. For the CW enthusiast, the new IC-751A includes an electronic keyer unit, QSK rated at up to 40WPM, standard FL-32A 9MHz/500Hz CW filter and CW sidetone to monitor your code in RX or TX modes... great for practice!

All Amateur Band Coverage. Plus general coverage reception from 100kHz to 30MHz. May be easily modified for MARS operation.

Improved Smooth Tuning. The IC-751A features a newly designed tuning knob for velvet smooth tuning.

Added LED Annunciator. For easily identifying if you're using the tuning speed, dial, or band switching functions.

32 Memories. Mode and frequency may be stored in any of 32 memories...all the memory capability that you'll ever need.

More Stable. Even in the receive mode, the IC-751A has a sophisticated thermal sensor to monitor the internal temperature. The sensor automatically activates the cooling fan which gives maximum stability ...critical for contesting.

First in Communications

ICOM America, Inc., 2380-116th Ave NE, Bellevue, WA 98004
3150 Premier Drive, Suite 126, Irving, TX 75063 / 3071 - #5 Road, Unit 9, Richmond, B.C. V6X 2TH Canada

All stated specifications are approximate and subject to change without notice or obligation. All ICOM radios significantly exceed FCC regulations limiting spurious emissions. 751A686
